

**SEMINARS FOR SURVIVORS:  
Protecting Your Smile Before,  
During, and After Cancer Treatments**

Many cancer treatments have side effects that affect a patient's mouth, teeth, and salivary glands. Fortunately, with good care, you and your doctor can reduce the risk of these side effects and manage them if they do occur.

Please join **Dr. Peterson Huang DMD, MS, FACP, FRCDC** as he provides insight into this important topic.

**Wednesday, September 25, 2019**

**5:30 - 7:00 PM**

**Life with Cancer Family Center**

**8411 Pennell Street • Fairfax, VA 22031**

**This program is offered free of charge.**

**To register go to *lifewithcancer.org* or call *703.698.2526***
